Mason Line and Twine

CATALOG (SKU) NUMBER: CWT

Used commonly in construction and utility, CWC mason/seine twine features a smooth construction that ties easily and knots securely. This hi-viz twine offers excellent resistance to abrasion, UV light, rot, mildew, petroleum products and most common chemicals. Tubes come attractively retail packaged, labeled, shrink wrapped and UPC coded. Features: Resists abrasion, mildew and most chemicals. Twisted offers less bend and a lower stress point than braided. Comes in 4, 8 and 16 oz tubes. For construction, utility, masonry and more.
