

7-1/4" Circular Saw, with Dust Collector

CATALOG (SKU) NUMBER: MK-5057KB

Powerful 13.0 AMP motor delivers enough power to cut five stacked 5/16" siding boards in a single pass. Dust collector engineered to reduce the amount of dust created while cutting. Guard is retractable for easier plunge cuts. Bearings and switch are protected with dust-proof design for longer tool life. Bevel cuts 0°-45° for a wide variety of cuts. Shaft lock for fast and easy blade changes. Includes rip fence for straight cuts.
