10" Dual Slide Compound Miter Saw With Stand

CATALOG (SKU) NUMBER: MK-LS1016LX5

10" slide miter saw with the crown molding cutting capacity (6-5/8" nested) of a 12" miter saw. Exclusive 6 linear ball bearings engineered to deliver "dead-on" accurate cuts. Innovative direct drive gearbox and guard system is engineered for increased vertical cutting capacity (4-3/4"). Compact design with a patented 4-Steel Rail Sliding System further increases rigidity to produce superior cuts. Less weight (53.3 lbs.) and the most compact design in its class for easy jobsite portability. Powerful 15.0 AMP direct drive motor requires less maintenance and delivers 3,200 RPM. Increased capacity for up to 6-5/8" crown molding (vertically nested), 4-3/4" baseboard (vertical), and 12" crosscuts at 90°. Largest crown molding cutting capacity in its class. Miters 0°-52° left and 0°-60° right, with positive stops at 0°, 15°, 22.5°, 31.6°, and 45° (left and right). Soft start feature for smooth start-ups. Electronic speed control maintains constant speed under load for smoother, higher quality cutting. Exclusive 4-3/4" tall dual sliding fence system features upper and lower fence adjustments for more precise miter and bevel cuts. Built-in laser clearly indicates line-of-cut whether blade is turning or not; on-off switch and micro-adjustments for precise "left-of-blade" or "right-of-blade" cutting. Dual rear-handle bevel lock is easily accessible and adjusts 0°-45° (left and right), with positive stops at 0°, 22.5°, 33.9° and 45° (left and right). Ergonomic rubberized horizontal D-handle design for better fit and added comfort. Easy one-touch miter lock for accurate adjustments and increased efficiency. Replaceable stainless steel miter scale features large and easy-to-read markings. Large precision machined aluminum base supports material for more efficient cutting. Easy-to-read dual bevel scale for more precise adjustments. See-through blade guard system for greater visibility of blade and line of cut. Easy one-step blade changes for increased efficiency. Rubberized feet help tool remain stationary. Large adjustable fence levers for fast and easy adjustments. Oversized trigger switch for better fit, added comfort and easier operation.
