11/16" Rotary Hammer, accepts SDS-PLUS bits

CATALOG (SKU) NUMBER: MK-HR1830F

Powerful 4.2 AMP motor delivers .9 ft.lbs. of impact energy to handle the most demanding applications. L.E.D. light illuminates drilling surface for more productivity in low light applications. Torque limiting clutch engineered to prevent gear damage by automatically disengaging gears if the bit binds. 2-mode operation for "Rotation Only" or "Hammering with Rotation". One-touch sliding chuck for quick bit changes. Sequential impact timing delivers timed hammering during rotation to minimize overlapping bit impacts for up to 50% faster drilling. "No hammering when idling" function helps increase tool life. Ergonomic "Pistol-shaped" handle with rubberized soft grip for increased comfort. Recessed lock-on button for continuous use. Extended life brushes are longer for more work between service intervals and less downtime. Makita Motor Advantage engineered with field core interlocking steel laminations, dual ball bearing armature and more copper commutator bars, increasing energy transfer efficiency for more power and longer tool life.
