PACIFIC Industrial Supply

18V Lithium-Ion Rapid Optimum Charger

CATALOG (SKU) NUMBER: MK-DC18RA

Industry leading charge times of 15 min. (Compact Battery) and 30 min. (LXT® Battery). During the charging process, the Rapid Optimum Charger monitors each battery and actively controls the current, voltage and temperature for faster charging and longer battery life. Rapid Optimum Charger has a built-in fan to cool the battery during the charging process, which is engineered to facilitate a faster charge time and helps product lifetime work. Compact design (7-12” Long, only 1.6 lbs.) is ideal for jobsite portability and storage.
