27 lb. AVT® Demolition Hammer, accepts SDS-MAX bits, with 1" Rotary Hammer

CATALOG (SKU) NUMBER: MK-HM1214C

Powerful 14 AMP motor delivers 19 ft.lbs. of impact energy to handle the most demanding applications. Anti-Vibration Technology is an internal counterbalance system that greatly reduces vibration and directs more impact energy to the work surface for increased user comfort and greater productivity. Constant speed control automatically applies additional power to the motor to maintain speed under load to complete the most challenging jobs. Soft start suppresses start-up reaction for more precision and better accuracy. Variable speed control dial enables user to match the speed to the application for greater versatility. L.E.D. service light notifies the user approximately 8 hours before the brushes need to be replaced. L.E.D. power light indicates switch failure or cord damage. Extended life brushes are longer for more work between service intervals and less downtime. Automatic brush cut-off protects commutator from damage for longer tool life. 12 bit angle settings allow the bit to be set at different positions for operating convenience. One-touch chuck allows for quick bit changes. "No hammering when idling" function helps increase tool life. Easy-to-operate slide switch increases productivity and allows for continuous use. Side handle swivels 360° for greater control. Rubberized ergonomic soft grip provides more comfort. Makita Motor Advantage engineered with field core interlocking steel laminations, dual ball bearing armature and more copper commutator bars, increasing energy transfer efficiency for more power and longer tool life.
