3.0 HP* Big Bore Air Compressor

CATALOG (SKU) NUMBER: MK-MAC5200

Cast iron pump with Big Bore cylinder and piston is engineered to provide faster recovery time for improved performance. Powerful 3.0 HP motor produces 6.5 CFM at 90 PSI for increased productivity. Pump is oil-lubricated for cooler running temperatures and reduced wear. Durable cast iron cylinder reduces wear and increases pump life; removable for easy maintenance. Folding handle with low profile design for easy storage with handle folded. Rugged wheels for jobsite portability. Built-in storage compartment conveniently stores air fittings and accessories. Air hose wrap stores 50 ft. of 3/8" air hose with handle folded or upright. Copper finned discharge tubing for increased heat dissipation and reduced water in the tank. Tool hangers store tools when not in use. Large automotive style industrial air filter for increased air intake and greater efficiency. Roll cage construction for extra protection to pump and motor assembly. Oil sight glass for fast, easy and efficient maintenance. Lever-handle ball valve tank drain improves upon standard petcock design for easier maintenance and air tank release. Convenient oil drain at the front of the pump for easy access. Built-in thermal overload for additional motor protection.
