4-1/2" SJS High-Power Angle Grinder

CATALOG (SKU) NUMBER: MK-9564CV

Powerful 12.0 AMP motor delivers more output and 10,500 RPM for the most demanding applications. SJS technology is a mechanical clutch system that helps prevent motor and gear damage by allowing the drive shaft to slip if the wheel is forced to stop. Variable speed control dial enables user to match the speed to the application. Constant speed control automatically applies additional power to the motor to maintain speed under load. Soft start suppresses start-up reaction for smooth start-ups and longer gear life. Electronic current limiter helps protect the motor from overload. Labyrinth construction seals and protects the motor and bearings from dust and debris for longer tool life. Spiral bevel gears for smoother rotations and a more efficient transfer of energy. Slide switch with lock-on setting for continuous use. "Tool-less" wheel guard for more convenient adjustments. Two position adjustable side handle for operator covenience. Compact design at only 11-3/4" long and weighs only 5.3 lbs.
