Cut Off Wheels

CATALOG (SKU) NUMBER: BR-CO

Bullard's Lightning grinding wheels and cut-off wheels are a general purpose formulation with "attitude". Don't be mistaken, this is a serious workhorse that gives a great blend of material removal and wheel life. It is made in the USA to exacting standards so you can expect consistent performance from every wheel you buy. Lightning wheels are a good choice for applications where versatility of material type and fast removal rate are important to the operator. Lightning wheels have the added benefit of a slightly lower acquisition cost compared to the high-performance Max Force and High Energy products.
