Ship Auger Bits

CATALOG (SKU) NUMBER: AT-AUG

The Irwin Tools power drill long ship auger bit has a 5/16" hex shank size, 12" twist length and an 17" overall length. It features a single cutter and side lip design to bore holes in wood where nails may be without damaging the bit. Heat treated for strength, the bit has hollow center flutes to quickly clear chips, wide lands to help keep it straight and a medium fast screw point for general wood boring applications. Bit can be resharpened.
